

Domiciliary Care Services

What does domiciliary care include?

What is Domiciliary Care

When daily tasks become too difficult to manage due to illness and other conditions Gella Care helps you to stay happy and independent at home. The day to day duties of our carers are wide ranging and almost limitless and are guided by a comprehensive care plan set by you.

1. Personal care – which ranges from bathing, showering, changing continence pads and maintaining comfort to prevent pressure sore, tendering hair and nails, shaving and footcare. Respect, dignity, privacy and independence are upheld.
2. Companionship and hobbies facilitation. This is enabling individuals to carry on doing the activities that matter most to them such as a particular hobby.
3. Housekeeping and meal preparation supporting an individual to maintain the house clean and in a tidy condition
4. This allows you or your beloved one to retain their independence in the home they know and love. Our staff can help curb loneliness for individuals in the comfort of their own homes
5. Our services help improve the wellbeing of individuals in the comfort of their homes

Care is Flexible

Care is flexible and can be short or long term and range from 30 minutes a week to 24 hours a day, 365 days a year. You can change and cancel care at no cost by giving 24 hours notice

GellaCare
